 **Did you know...?**  
**January is carrot season in Texas!**

 Texas-grown carrots are crunchy, colorful, and full of vitamin A — the nutrient that keeps your eyes sharp and your immune system strong during cold winter months. They're also packed with fiber to help you stay full and focused throughout the school day.

Try them raw with your favorite dip, roasted as a side dish, or cooked into soups and stews for extra

warmth on chilly days. However you eat them, carrots are a tasty way to start the new year feeling healthy and strong!
