

Construction Management & Inspection

Principles of Construction

Construction Management 1

Construction Management 2

Practicum in Construction Management

Students work in the Construction Management Shop, using computer software to create and design projects, then bring those ideas to life with the materials and tools available in the lab. As students develop their skills, they continue to add to the creation of a tiny home project that is complete and ready for use at the end of each year.

College Majors

Construction Management

Engineering Technology

Building Maintenance

Project Management

Careers

Building Inspector
(avg. yearly \$62,251)

First-Line Supervisor
(avg. yearly \$64,473)

Construction Manager
(avg. yearly \$95,072)

*Industry-Based
Certification*
