

## **WHAT IS AVID?**

AVID (Advancement Via Individual Determination), is a college and career readiness system. The AVID College Readiness System (ACRS) is designed to help close the opportunity gap for students. By providing students with the skills and support needed to be successful in rigorous academic classes, AVID paves the way to increase post-secondary opportunities for both college and career. The success of the AVID system is based on four domains that provide support for the district as a whole. Through Leadership, Culture, Instruction, and Systems, AVID cultivates a positive schoolwide impact on academic success.

## **AVID'S MISSION**

AVID's mission is to close the opportunity gap by preparing all students for college readiness and success in a global society.
