

Health Services Annual Review Summary

San Marcos CISD

4/20/18

Health services are vital for student academic success. Health services are ever evolving to meet the needs of students and the community allowing a more positive learning environment

Procedure for addressing: The School Health Advisory Committee (SHAC) reviews annually and more frequently the health services and the need for services to improve student health, wellness and fitness.

Areas to be covered (as needed):

A community comment period as well as discussion on the SHAC are done for each new health services prior to Student Confidentiality remains covered through FERPA and HIPPA laws. Parents or guardian of children under the age of 18 remain the responsible party for accessing the student’s records. The only designated district positions having access to a student’s health records include: campus nurse, nurse supervisor and if a designated 504 or special education team is identified for needing access to the medical records and approved by the ARD/504 team which includes the student and/or parent. All security of student records follows the district protocol for ensuring security of records.

Improving the health and wellness of students, staff, and families results in positive effects on attendance and academics. Students, staff and families facing health crisis’s affect the success of students learning.

Prior to 2018 the following health services have been implemented under the above guidelines and are being reviewed as part of the three-year assessment of health services.

Before a district or a school may expand or change the health-care services available at a school in the district from those that were available on January 1, 1999, the board must:

1. Hold a public hearing at which the board provides an opportunity for public comment and discloses all information on the proposed health-care services, including:
 - a. All health-care services to be provided;
 - b. Whether federal law permits or requires any health-care service provided to be kept confidential from parents;
 - c. Whether a child's medical records will be accessible to the parent;
 - d. Information concerning grant funds to be used;
 - e. The titles of persons who will have access to the medical records of a student; and
 - f. The security measures that will be used to protect the privacy of students' medical records.
2. Approve the expansion or change by a record vote.
