

# Robotics & Automation Technology

Principles of Applied Engineering

Robotics 1

Robotics 2

Engineering Design & Presentation

Students work in the Robotics Lab, designing, creating, and modifying machines and electronic robots and structures. Students compete in robotic competitions testing their creations in a variety of task-oriented contests. They work with local businesses that specialize in robotics learning to apply what they learn to the complex machinery components found in a growing number of manufacturing facilities.

## College Majors

Mechanical Engineering

Industrial Technology

Robotics Technology

Electrical Engineering

## Careers

Computer Operator  
(avg. yearly \$46,353)

Industrial Engineer  
(avg. yearly \$100,000)

Electrical Engineer  
(avg. yearly \$102,534)

*Industry-Based  
Certification*

FANUC Robot Operator 1
